Drowning is the No. 1 killer of children under 5 years old!

27 young children in Australia died from drowning last year; 19 of these were under 4. Most drowning deaths occur in backyard pools or bath tubs. Then, there are countless babies and young children with hypoxic brain injuries from near drowning incidents. Over half of Queensland children cannot swim when starting school. **Have your children taught to swim now - the RIGHT WAY!**

Help prevent a tragedy - have YOUR baby taught by the drowning prevention and learn to swim experts - Superfish Swim Schools.

Our World Class Programs have been developed and implemented by our very own Olympian and Commonwealth Swimming Champion Andrew Baildon and Swimming Industry presenter/trainer Karen Baildon.

All Superfish Swim Schools offer:

- Drowning prevention and learn to swim programs for all ages, from babies of 4 months to adults.
- Stroke perfection
- Competitive squads
- Adult fitness classes and aqua aerobics
- Indoor heated pools, excellent water quality
- Lessons available 6 days per week
- Highly trained swimming teachers
- Award-winning customer service
- Exceptional facilities
- Small class sizes
